The best outdoor solar lights should be durable enough to withstand the elements, bright enough for what you need them for, and energy efficient.

Solar expert Andrei says that for decorative lighting like fairy lights, all you need is 10-50 lumen lights. If you're buying lights for a path, Andrei recommends 100-200 lumens per light. This 'gives good visibility without being too harsh.'

With batteries that charge via solar panels, the best outdoor solar lights can help your household lower its carbon footprint. And because the market for solar lights has boomed as clean energy becomes more popular, there are tons of options, ensuring that you can find lights that are perfect for your home.
