Wholesale of old solar panels

Overview

Can a wholesale solar company sell surplus solar equipment?

Wholesale solar companies have two main options for selling excess, surplus, clearance, and used PV equipment in the secondary market. They can utilize auction sites, and they can join EnergyBin, the wholesale solar B2B exchange for the world's PV professionals.

Where can I buy used solar panels?

In general, smaller off-grid projects where you can tolerate lower efficiency panels (i.e. lots of space for panels or low electric usage) are good candidates for used solar panels. If you're looking to shop for used solar panels, re-sale marketplaces such as Craigslist, Facebook Marketplace, and eBay are good places to start.

Are refurbished solar panels for sale?

You'll also see refurbished panels for sale. Often when commercial or utility solar farms update their equipment, refurbishers will thoroughly test the used panels and repair or replace internal components prone to wearing out, like cables and connectors, before reselling them.

Does surplus solar offer inventory pricing?

Inventory pricing is not listed and will be provided by request. At Surplus Solar Products Inc. we purchase both new and used surplus solar energy material then match that material with you. Our stock is constantly changing, but frequently includes solar electric panels in a broad range of wattages, frame sizes and colors.
