Will the generator of Fengjun 5 break down

Voltage range:691.2-947.2V

>6000 cycles(100%DOD)

Rated battery capacity:
216KWH (customizable)

EMS communication:
4G/CAN/RS485

Overview

A few days ago, China Pickup Truck Network learned from the great wall pickup official that the latest models of the Great Wall Fengjun 5 and Fengjun 7 were officially launched.

A few days ago, China Pickup Truck Network learned from the great wall pickup official that the latest models of the Great Wall Fengjun 5 and Fengjun 7 were officially launched.

The unit 5 of China's Fuqing Nuclear Power Plant, developed by China National Nuclear Corporation (CNNC), reached a 'critical state' for the first time on Oct 21, indicating that the unit has officially entered a state of operation with power and has taken an important step towards completion and commissioning.
