Winder power group Israel

Overview

Who is Winder Power Limited?

Winder Power Limited | 2,017 followers on LinkedIn. Major shareholder | Winder Power (Winder) is a leading UK manufacturer of power and distribution transformers and generator equipment. Winder specialises in the design, manufacture, deployment and management of distribution transformers and power transformers up to 60MVA.

Who makes Winder power transformers?

Winder specialises in the design, manufacture, deployment and management of distribution transformers and power transformers up to 60MVA. Its rotating-machines division (Newton Derby), is the leading manufacturer of exciters and permanent magnet machines for the power generation industry.

Who does Winder serve?

Winder serves a wide range of customers in the utilities, renewable energy, and industrial sectors across the UK and internationally. Key clients include SSE plc, Northern Ireland Electricity, Electricity North West, Scottish Power, GE Energy, Drax Power, Ineos Chemicals and Air Products.

Who makes Winder Exciters?

Its rotating-machines division (Newton Derby), is the leading manufacturer of exciters and permanent magnet machines for the power generation industry. Winder serves a wide range of customers in the utilities, renewable energy, and industrial sectors across the UK and internationally.

Who owns a grid connected wave energy project in Israel?

The Company owns and operates a grid connected wave energy project in Israel, with co-investment from EDF Renewables IL and the Israeli Energy Ministry, which recognized Eco Wave Power's technology as "Pioneering Technology." The Israeli wave energy project marks the first grid-connected

wave energy system in Israel's history.

Winder Power

At Winder Power we have tremendous history After forming over one hundred years ago, we moved to our current premises in 2008. We have a modern factory covering 80,000 square feet, and have first-class employees who are committed to putting customers at the heart of capital to businesses in England and Wales.

Applications

One of the UK's leading manufacturers of Power & Distribution Transformers. Newton Derby can provide specialist AC and DC generators for armoured vehicles, ground power units and unmanned air vehicles as well as rotary and solid state frequency converters for aircraft ground supplies and marine or land-based buffered supplies.

Winder Power

Winder Power ([winderpower .uk](http://winderpower.uk)) designs, manufactures, installs and manages electricity distribution transformers for the UK electricity grid and infrastructure customers. Transformers are used to 'step up' or 'step down' voltages with a wide range of uses to send power across the UK, for example connecting electricity generated by Wind and Solar farms (low voltage production)

...

Eco Wave Power

Eco Wave Power's mission is to assist in the fight against climate change by enabling commercial power production from the ocean and sea waves. The Company owns and operates a grid connected wave energy project in Israel, with co-investment from EDF Renewables IL and the
