What is a lion UT 1300 BT-heater battery?

The Lion UT 1300 BT-Heater Battery is the latest in Lithium Battery technology. It replaces lead acid batteries for energy storage and auxiliary power. With an internal heater for maximum charge and performance. Enjoy the benefits of longer run time, faster charging, and Bluetooth compatibility.

Is Lion Safari UT 1300 Battery safe?

The Lion Safari UT 1300 is made from Lithium Iron Phosphate and is the safest battery technology on the market. Because it does not emit any toxic fumes or gases, you can use it inside your home, tent, RV or any other confined area.

Why should you choose Lion Energy?

To address this, Lion Energy focuses on designing and engineering our software in the USA, significantly reducing the risk of external infiltration. You can trust that Lion Energy's software and products are developed with measures to minimize foreign influence and exposure.

Is the Safari UT a good battery?

The Safari UT series all have an internal Battery Management System (BMS) that acts as a safety net to shut down the battery if it out of parameters. This prevents the battery from overcharging or discharging as well as operating outside of the temperature range. This very well could be the last battery you ever have to buy.
