

## European Solar and Energy Storage Solutions

# Zinc8 energy solutions inc Niue

## Overview

---

What is zinc8 energy solutions?

Zinc8 Energy Solutions has developed a proprietary flow battery technology that it claims is able to deliver power in the range from 20 kW to 50 MW that can store and discharge energy durations from 4 to 100 hours. Scalability and higher capacity is achieved with an increase in the size of storage tanks that hold zinc particles.

What is a zinc8 energy unit?

A unit consists of one common share and one transferable share purchase warrant. Zinc8 Energy has developed a patented energy storage system that stores energy in the form of zinc particles. The system can deliver power in the 20 kW - 50 MW range, offering storage duration of 8 hours or more for microgrids and utilities.

What is zinc8 ESS?

The Zinc8 ESS is a modular Energy Storage System designed to deliver power in the range 20kW - 50MW with capacity of 8 hours of storage duration or higher. With the advantage of rechargeable zinc-air flow battery technology, the system can be configured to support a wide range of long-duration applications for microgrids and utilities.

Where is zinc8 based?

Canadian battery developer Zinc8 Energy Solutions announced its plans to begin battery production in the United States incentivized by manufacturing production credits within the Inflation Reduction Act. Zinc8 Energy Solutions Inc. announced that the company's inaugural commercial production facility will be based in Ulster County in New York.

Why should you choose zinc8?

At Zinc8 we specialize in providing scalable, environmentally friendly, long-

lasting energy storage solutions. Our multi-patented Zaeras™ Flow Battery, technology uses zinc-air chemistry, to store and deliver electricity on demand, without the restrictions or environmental risks associated with today's market leaders.

Does zinc8 have a private placement?

A week ago, Zinc8 also announced a non-brokered private placement as part of which it will sell up to 27.27 million units to replenish working capital. A unit consists of one common share and one transferable share purchase warrant. Zinc8 Energy has developed a patented energy storage system that stores energy in the form of zinc particles.
